Living Longtime BayLakers

The primary objective of this voluntary mini history project is to have fun. It's just a list of those who have been "BayLakers" at least 50 years.

The criteria are inclusive. People who own or have owned property on Bay Lake or are related to an owner and have been coming pretty regularly for at least 50 years (including time as a child, grandchild, parent or other close relative or guest of an owner and/or time coming to a Bay Lake resort prior to buying a cabin (or their relative buying a cabin) or who have turned their property over to the next generation) and want to participate, can send their name (including maiden name if the initial visit was before getting married), current lake address and first year on Bay Lake to ericksonpaulsue@aol.com.

Examples:

- I came as a child of an owner in 1963. I qualify for 53 years.
- A resident's family came as guests for a number of years before buying. She can claim those years.
- A resident's childhood years were on Coffee Lake. She can claim those years.
- An individual who rented and who's close relative now owns property can count all of the years.
- Previous owners who have turned their property over to the next generation can continue to count the years even if they are no longer able to visit.

Notes:

- I'm serious about this being inclusive and I'm sure my examples don't cover all possible scenarios. So please help me. If you're unsure, ask. It may result in a criteria revision.
- If you sent me your information prior to August 27th, 2016, and you're not listed (or listed incorrectly) I messed up. Please send it again.
